

Skilled Nursing Unit

About Our Team

In the Skilled Nursing Unit, the licensed nurses and nursing assistants have excellent long-term experience in caring for the elderly. The utmost consideration is for the patients' rehabilitation and restoration needs.

New Technology

- Range of Motion (CPM) machine for post-knee surgery patients
- Fall prevention devices
- Post-op ortho devices
- Tube-feeding pumps and IV pumps

Vital Stats

- A cozy 30-bed skilled and rehab unit with private (single) room accommodations
- Recent state survey – with NO deficiency in nursing

Our Team Members

All team members in this unit have a strong, team player attitude. They are aware that there is no letter “I” in the word “team.” Together everyone achieves more!

A Word from Our Manager

“I expect my team members to work with a compassionate heart on all patients. While rendering quality bedside care, they are expected to follow safe nursing practices and the BayCare values at all times. Our goal is to meet all of the patients' needs to achieve excellence in patient satisfaction.” – Alicia Salyards
